**Features**

### CCTV System

- **Plug and Play** – No need of DVR. GPRS based
- **Live Online View (HD And Ultra HD)** – Parents can get access of live online view inside bus
- **Recording** - Keep 25 days recordings safe
- **SD Card Slot** - No need of computer. SD card slot to record images & videos.
- **Remote and Real Time Monitoring** – Support mobile app for real time viewing
- **Wide Dynamic Range**

### GPS Tracking System

- **Real Time Location Tracking:** Real time location can be tracked on mobile app and web
- **Speed Alerts:** Over speeding alerts
- **Geo Fencing:** It allows us to limit some region of area and if your vehicle go beyond the boundary of that region then urgent message will be send by the system through the mobile app to the manager to control the driver.
- **Idle Time Report** - Gives you an accurate report detailing when your driver was stopped and has left the engine running on the vehicle.
- **Track Detail:** Provides you with a split screen view when reviewing your driver's route. Speed Bar - This allows you to see how fast your driver was driving in a specific area.
- **Group Reporting:** Allows you to set vehicles up into groups for faster and easier reporting.
- **Reports:** Reports can be generated by the system to help understand the driver's behavior and to improve it.

### RFID Attendance System

- Daily Bus Boarding/De-Boarding SMS to Parents
- Daily Absentee SMS to parents when school opens
- Screen to filter students based on attendance percentage range. e:g Students between up to 70%
